

CAT BREEDS & TYPES

Kolts & Kitties Combined Cat Info

I. Cat Categories

- In 4-H, cats are divided into two categories:
 - Household Pets
 - Purebreds

A. Household Pets

- Most cats in America are housecats of unknown ancestry.
- These cats are referred to as Household Pets (HHP).
- HP cats are not judged according to a breed standard. Instead they are judged on:
 - Physical condition
 - Cleanliness
 - Temperament
 - Attractive or unusual appearance
 - Presentation

B. Purebreds

- A purebred cat is a cat whose ancestors are all from the same recognized breed.

II. Breed Registries

- Cat registries are the organizations in charge of keeping records of the genealogies of purebred cats.
- They also issue formal certificates attesting to a cat's breed & documenting its lineage. These are known as pedigrees.
- Cat registries hold cat shows, where registered cats are judged according to detailed breed standards.
- Titles earned during these shows are recorded in the cat's papers.
- The beginning of modern cat breeding is attributed to a cat show held at the Crystal Palace in London in 1871.
- An organization called The National Cat Club was formed for the purpose of this show. Essentially, it became the world's first ever cat registry.
- It wasn't long before cat breeders branched out & set up new cat registries. These reflected different views of breed standards or other aspects of breeding & showing cats.
- Today there are numerous cat registries in the US & around the world, but 4 large international registries dominate the arena. Most pedigreed cats will have their papers issued by one of these associations.

A. Cat Fancier's Association (CFA)

- Founded in 1906, the CFA is considered to be the largest cat registry in the world.
- Its headquarters are in the US & it is predominantly an American association.
- The CFA is considered to be more conservative than other registries & currently recognizes 44 cat breeds.
- <http://www.cfa.org/>

B. The International Cat Association (TICA)

- Established in the USA in 1979, TICA's founder wanted it to be a more progressive and flexible registry.
- It seems to hold true to its mission statement, with recognizing over 55 cat breeds & introducing a formal genetic registry.
- www.tica.org/

C. Fédération Internationale Féline (FIFe)

- FIFe is a governing body that brings together 42 cat registries in 40 different countries.
- The organization offers a unified registry with established breed standards.
- Founded in France in 1949, its current board members reside in various countries in Europe.
- <http://fifeweb.org/>

D. American Cat Fanciers Association (ACFA)

- Not to be confused with the CFA, the ACFA was established in 1955 & currently recognizes 53 cat breeds.
- It emphasizes the friendly & welcoming nature of its organization & the social aspects of cat breeding.
- <http://www.acfacat.com/>

III. Cat Breed Types

- Purebred cat breeds are divided into 3 types: Natural, Man-made (Hybrid), Spontaneous Mutation

A. Natural Cat Breeds

- Created by nature then refined & stabilized by selective breeding.
- Examples of natural breeds:

➤ Abyssinian	➤ American Bobtail	➤ American Shorthair	➤ Birman
➤ British Shorthair	➤ Egyptian Mau	➤ Japanese Bobtail	➤ Korat
➤ Maine Coon	➤ Manx	➤ Norwegian Forest Cat	➤ Persian
➤ Russian Blue	➤ Siamese	➤ Siberian	➤ Singapura
➤ Turkish Angora	➤ Turkish Van	➤ Cymric	

B. Man-Made (Hybrid) Cat Breeds

- Created by crossing 2 or more breeds to create a third breed.
- Some are created by crossing a domestic cat with a wild cat. These are called “Exotics”.
- Examples of Man-Made breeds:

➤ Bombay = Burmese + American Shorthair	➤ Exotic = Persian + American Shorthair +Burmese
➤ Havana Brown = Black shorthair + Seal point Siamese	➤ Javanese = Balinese + Colorpoint Shorthair
➤ Tonkinese = Siamese + Burmese	➤ Bengal = Asian Leopard Cat + Domestic Cat
➤ California Spangled = Many breeds. Trying for spots	➤ Chausie = Jungle cat + Domestic cat
➤ Foldex = Scottish Fold + Exotic Shorthair	➤ Himalayan = Persian + Siamese
➤ Longhair Exotic = American Shorthair + Persian	➤ Pixiebob = Bobcat + Domestic cat
➤ Savannah Cat = Serval cat + Domestic cat	➤ Snowshoe = Siamese + American Shorthair
➤ Toyger = Bengal + Domestic Shorthair	➤ Ragdoll = Bred from one friendly cat

C. Mutation Cat Breeds

- Created by a spontaneous change in a gene resulting in an unusual feature.
- Breeders then work to develop the feature & create a new breed.
- Some mutations happened so long ago that they are now considered Natural Breeds.
- Examples of mutation breeds:

➤ American Curl	➤ American Wirehair	➤ Balinese	➤ Cornish Rex
➤ Devon Rex	➤ Donskoy	➤ Scottish Fold (Shorthair)	➤ Don Sphynx
➤ LaPerm	➤ Munchkin	➤ Selkirk Rex (Shorthair)	➤ Sphynx

IV. Body Types

- All cats are divided into 3 basic body types: Cobby, Moderate, Foreign
- There is some overlap between types.

A. Cobby Body Type <ul style="list-style-type: none"> • Bodies are: heavy, short-legged, compact, broad-chested • Examples: Persian, Manx 	D. Semi--Foreign Body Type <ul style="list-style-type: none"> • Bodies are beginning to stretch out, but not too extreme. • Examples: Abyssinian, Japanese Bobtail, Russian Blue
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<p><u>B. Semi--Cobby Body Type</u></p> <ul style="list-style-type: none"> • A little longer & not quite as broad-chested as cobby bodies. • Examples: Chartreux& British Shorthair <p><u>C. Moderate Body Type</u></p> <ul style="list-style-type: none"> • Body is: Well balanced, Medium length, Well-muscled, Not extreme • Most breeds are of this type 	<p><u>E. Foreign Body Type</u></p> <ul style="list-style-type: none"> • Sometimes called Oriental or Exotic. • Bodies are extremely long & tubular. • Examples: Siamese & Cornish Rex
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

V. Cat Colors

- Coat, color & pattern are not breeds, they are decorations.
- The original coat was a shorthaired, brown classic tabby.
- All other coats, colors & patterns were mutations.

A. Basic Cat Colors

- Basic colors are: Red, Black, Chocolate, Cinnamon*
- Cat Color: Red
 - Other names: orange, marmalade or tangerine.
 - Light reds are called yellow.
 - The dominant color gene
- Cat Color: Black
 - Other names: Ebony
- Cat Color: Chocolate
 - A lighter version of black.
 - Other names: brown, sable, seal, mahogany or chestnut
- Cat Colors: Cinnamon
 - An even lighter version of black.
 - Other names: terracotta, burnt sienna, tawny

B. Dilute Cat Colors

- Each basic cat color has a diluted version:
- Dilute Colors: Cream
- Dilute of red.
 - Other names: beige, tan
- Dilute Colors: Blue
 - Dilute of black.
 - ✓ Other names: grey, ash, slate
- Dilute Colors: Lilac
 - Dilute of chocolate.
 - Other names: lavender, platinum, frost
- Dilute Colors: Fawn
 - Dilute of Cinnamon.
 - Other names: coffee & cream, caramel

C. White & White Markings

- A solid white coat may be any of three types: Albino white, Complete white spotting, Dominant white.
- Some white cats are deaf.
- Albino White
 - Albino whites can have pink or pale blue eyes
 - Albino white does not cause deafness.
- White Spotting
 - Can cause just a few spots or an entire white coat.
- Dominant White
 - Caused by gene which hides all color & pattern.
 - Eyes are a darker blue than in albino whites.

BASIC COLORS			
			
Red	Black	Chocolate	Cinnamon
DILUTE COLORS			
			
Cream	Blue	Lilac	Fawn
WHITE & WHITE MARKINGS			
			
Albino White (pink eyes)	Albino White (blue eyes)	Complete White Spotting	Dominant White

VI. Coat Patterns

- Patterns are:
 - Tabby
 - Solid (self)
 - Tipped
 - Parti--color
 - Bi-color
 - Pointed

A. Solid (Self)

- Cat is entirely one color.
- Red & it's variants will show faint tabby markings.

B. Tabby

- The original coat pattern.
- Each hair is banded with light & dark stripes called agouti bands.
- Have an "M" on the forehead & stripes on the cheeks.
- Patterns: Classic Tabby
 - Markings are swirled creating a bulls-eye or marble cake appearance on the sides.
 - Have solid lines on the spine.
 - Have a butterfly mark on the shoulders.
- Patterns: Mackerel Tabby
 - Have stripes like a tiger (or a mackerel)
- Patterns: Spotted Tabby
 - Stripes are broken & appear as spots.
 - Often looks like a mackerel tabby with dotted lines.
- Patterns: Ticked Tabby
 - Has no noticeable spots or stripes, just the agouti hairs.

C. Tipped

- Each guard hair is white with color only on the tip.
- Variations include:
 - Cameo: Red tipping
 - Chinchilla (Shell): Color only on the very tips of the hairs.
 - Shaded: Color on the last ¼ of the hairs.
 - Smoke: Color on the last ½ of the hairs.

D. Parti-Color Patterns

- Cats with both red and black.
- Usually female.
- Variants are:
 - Tortoise shell: Patches of solid red & solid black.
 - Patched tabby: Patches of 2 or more colors with tabby markings.
 - Calico: A tortoise shell where the color patches are on a white background.

- Torbie: A patched tabby where the color patches are on a white background.

E. Patterns: Bi-Color

- Any cat that has white markings.
- Some common variants are:
 - Harlequin: A cat that is white with a large spots of color.
 - Tuxedo Cat: A black cat with white paws & chest.
 - Van: A white cat with patches of color on the head & tail (may have a few body spots)

F. Pointed

- Body is a dilute color.
- Points are a darker color.
- The “points” are:
 - Facial mask
 - Ears
 - Legs
 - Feet
 - Tail

VII. Coat Texture

- A cat’s coat has 3 types of hairs:
 - Long guard hairs.
 - Bristly awn hairs.
 - Soft down hairs (undercoat)
- Different breeds may have more or less (or none) of each of these hairs.

VIII. Coat Length

- Short is the natural coat length.
- Breeds have many terms for coat length.
- 4-H only divides as short or long hair.

CAT BREEDS

Unit2 – Chapter 2 continued

 <p style="text-align: center;"><i>Abyssinian</i></p>	<p>Body: Semi-Foreign Coat: Short C/P: Ticked Tabby in ruddy, red, blue or fawn Type: Natural</p>	 <p style="text-align: center;"><i>American Bobtail (Shorthair)</i></p>	<p>Body: Moderately Long Coat: Short or Long C/p: Any Tail: Long enough to show above back, not long enough to touch hock Type: Natural</p>
------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

 <p>American Curl (Longhair)</p>	<p>Body: Semi-Foreign Coat: Short or long C/p: All Ears: Minimum 90° arc or curl Origin: Mutation</p>	 <p>American Shorthair</p>	<p>Body: Solidly built C/p: Any except pointed Origin: Natural</p>
 <p>American Wirehair</p>	<p>Body: Moderate Coat: Short hair that is crimped, hooked or bent C/p: Any except pointed Origin: Mutation</p>	 <p>Australian Mist</p>	<p>Body: Moderate Coat: Short C/p: Spotted or marble tabby in brown, blue, peach, lilac, caramel, gold, or chocolate Origin: Hybrid (Abyssinian x Burmese) Also called "Spotted Mist"</p>
 <p>Balinese</p>	<p>Body: Foreign Coat: Medium C/p: Seal, chocolate, blue or lilac point Origin: Mutation (of Siamese)</p>	 <p>Bambino</p>	<p>Body: Semi-Cobby Coat: Hairless C/p: All colors Type: Hybrid (Munchkin x Sphynx)</p>
 <p>Bengal</p>	<p>Body: Moderate Coat: Short C/p: Spotted or marble Tabby in brown or seal Hybrid: (Asian Leopard x Domestic Cat)</p>	 <p>Birman</p>	<p>Body: Long & Stocky Coat: Long C/p: Pointed with white markings Eyes: Blue Origin: Natural</p>
 <p>Bombay</p>	<p>Body: Medium Coat: Short C/p: Black Eyes: Gold to copper Origin: Hybrid (Burmese x American Shorthair)</p>	 <p>British Shorthair</p>	<p>Body: Cobby Coat: Short C/p: Any except pointed Origin: Natural</p>
 <p>Burmese</p>	<p>Body: Cobby Coat: Short C/p: Sable, champagne, blue or platinum Eyes: Yellow to gold Origin:</p>	 <p>Burmilla</p>	<p>Body: Cobby Coat: Short or long C/p: black, blue champagne, chocolate, cream, lilac, platinum, red, tortoise shell Type: Hybrid (Burmese x Persian)</p>

<p><i>California Spangled</i></p> 	<p>Body: Foreign Coat: Short Coat/pattern: Spotted Tabby Type: Hybrid (many breeds)</p>	<p><i>Ceylon</i></p> 	<p>Body: Moderate, compact Coat: Short C/p: Ticked tabby in sable to golden Type: Natural</p>
<p><i>Chantilly (Tiffany)</i></p> 	<p>Body: Cobby Coat: Long C/p: Solid or tabby in Blue, chocolate, cinnamon, lilac, fawn Type: Hybrid (Burmese x Birman) Called Chantilly in Canada and Tiffany in Australia</p>	<p><i>Chartreux</i></p> 	<p>Body: Medium Long Coat: Medium short C/p: Any shade of blue Eyes: Copper to gold Origin:</p>
<p><i>Chausie</i></p> 	<p>Body: Medium C/p: Solid black, black or brown ticked tabby Eyes: Gold or yellow Tail: ¾ to full length Type: Hybrid (Jungle cat x domestic cat)</p>	<p><i>Colorpoint Shorthair</i></p> 	<p>Body: Foreign Coat: short C/p: Pointed Eyes: Blue Origin:</p>
<p><i>Cornish Rex</i></p> 	<p>Body: Semi-Foreign Coat: Short & Wavy Colors/Patterns: All Origin: Mutation</p>	<p><i>Cymric</i></p> 	<p>Body: Cobby Coat: Long C/p: All except pointes, ticked tabby, chocolate, lavender Tail: should appear tailless Origin: Natural</p>
<p><i>Devon Rex</i></p> 	<p>Body: Semi-foreign Coat: Short & wavy C/p: Any Type: Mutation</p>	<p><i>Domestic Lynx</i></p> 	<p>Body: Moderate Coat: Short or long C/p: ticked tabby in black, blue, chocolate, cinnamon, fawn, or lilac Type: Hybrid (Canadian Lynx x Domestic Cat)</p>
<p><i>Donskoy</i></p> 	<p>Body: Medium Coat: Lots of skin wrinkles, comes in Bald, Flocked, Velour, Brush Type: Mutation</p>	<p><i>Don Sphynx</i></p> 	<p>Body: Foreign Coat: Hairless, wrinkled skin Type: Mutation</p>

<p><i>Egyptian Mau</i></p> 	<p>Body: Semi-foreign Coat: Short C/p: Spotted tabby in silver, bronze or smoke Eyes: Green Type: Natural</p>	<p><i>European Burmese</i></p> 	<p>Body: Medium Coat: Short C/p: Solid colors & tortoise shell Eyes: Yellow to amber Type: Hybrid (Burmese/Siamese)</p>
<p><i>European Shorthair</i></p> 	<p>Body: Moderate Coat: short C/P: all except pointed, chocolate, & lilac Type: Natural</p>	<p><i>Exotic</i></p> 	<p>Body: Cobby Coat: Short C/P: Any Type: Hybrid (Persian x American Shorthair x Burmese)</p>
<p><i>Longhair Exotic</i></p> 	<p>Body: Cobby Coat: Long C/P: All Type: Hybrid (American Shorthair x Persian)</p>	<p><i>Foldex</i></p> 	<p>Body: Cobby Coat: Short C/P: Any Ears: Folded Type: Hybrid (Scottish Fold x Exotic Shorthair)</p>
<p><i>Foreign Burmese</i></p> 	<p>Body: Medium Coat: Short C/P: Brown, blue, chocolate, lilac, red, cream, tortoise shell Eyes: Yellow Type: ?</p>	<p><i>German Rex</i></p> 	<p>Body: Moderate Coat: Curly C/P: any except chocolate, lavender or pointed Type: Mutation</p>
<p><i>Havana Brown</i></p> 	<p>Body: Medium Coat: Short C/P: Brown Eyes: Green Type: Hybrid (Black Shorthair x Seal Point Siamese)</p>	<p><i>Highland Fold</i></p> 	<p>Body: Medium Coat: Long, single coat C/P: Any except chocolate, lavender or pointed Ears: fold forward & down Type: Hybrid (Scottish Fold x ?)</p>
<p><i>Himalayan</i></p> 	<p>Body: Cobby Coat: Long & thick C/P: pointed Eyes: Blue Type: Hybrid (Persian x Siamese)</p>	<p><i>Non-Pointed Himalayan</i></p> 	<p>Body: Cobby Coat: Long C/P: not pointed Type: Hybrid (Persian x Siamese)</p>

			Basically a Persian that carries the colorpoint gene
<p><i>Japanese Bobtail (Shorthair)</i></p> 	<p>Body: Semi-Foreign</p> <p>Coat: Long or short</p> <p>C/P: Any except chocolate, lavender, pointed or ticked tabby</p> <p>Tail: must have 1 or more kinks, total tail can't extend more than 3" from body, must have a pom-pom of fur</p> <p>Type: Natural mutation</p>	<p><i>Javanese</i></p> 	<p>Body: Foreign</p> <p>Coat: Medium</p> <p>C/P: Pointed</p> <p>Type: Hybrid (Balinese x Colorpoint Shorthair)</p>
<p><i>Kinkalow</i></p> 	<p>Body: Medium</p> <p>Coat: short</p> <p>C/P: all</p> <p>Ears: Folded back</p> <p>Legs: Short</p> <p>Type: Hybrid (Munchkin x American Curl)</p>	<p><i>Korat</i></p> 	<p>Body: Semi-cobby</p> <p>Coat: short</p> <p>C/P: Silver tipped blue</p> <p>Eyes: Green</p> <p>Type: Natural</p>
<p><i>Kurilian</i></p> 	<p>Body: Cobby</p> <p>Coat: short or long</p> <p>C/P: any except chocolate, lilac, & pointed</p> <p>Tail: short</p> <p>Type: Natural Mutation</p>	<p><i>LaPerm (Shorthair)</i></p> 	<p>Body: Moderate</p> <p>Coat: long or short; curly</p> <p>C/P: any</p> <p>Type: Mutation</p>
<p><i>Maine Coon</i></p> 	<p>Body: Large, Moderate</p> <p>Coat: long</p> <p>C/P: Any except chocolate, lavender, pointed, ticked tabby</p> <p>Type: Natural</p>	<p><i>Manx (Shorthair)</i></p> 	<p>Body: Cobby</p> <p>Coat: Short or long</p> <p>C/P: any except chocolate, lavender, pointed & ticked tabby</p> <p>Tail: should appear tailless</p> <p>Type: Natural</p>
<p><i>Miniskin</i></p> 	<p>Body: Moderate</p> <p>Coat: Thin & sparse, fur on extremities</p> <p>C/P: Any</p> <p>Legs: Short</p> <p>Type: Hybrid (Munchkin x Sphynx)</p>	<p><i>Munchkin</i></p> 	<p>Body: Semi-Foreign</p> <p>Coat: Short, long</p> <p>C/P: Any</p> <p>Legs: Very short</p> <p>Type: Mutation</p>

 <p><i>Nebelung</i></p>	<p>Body: Semi-foreign Coat: medium long C/P: Blue Eyes: Green Type: Hybrid (Russian blue x ?)</p>	 <p><i>Norwegian Forest Cat</i></p>	<p>Body: Moderate Coat: Long, double coat C/P: any except chocolate, sable, lavender, lilac, cinnamon, fawn or pointed Type: Natural</p>
 <p><i>Ocicat</i></p>	<p>Body: Moderately long Coat: Short C/P: Spotted Tabby Type: Hybrid (Abyssinian x Siamese x American Shorthair)</p>	 <p><i>Ojos Azules</i></p>	<p>Body: Moderate Coat: Short C/P: Any Eyes: Blue Type: Mutation</p>
 <p><i>Oriental (Shorthair)</i></p>	<p>Body: Foreign Coat: Short or long C/P: any Eyes: Green or blue, not crossed Type: Hybrid (Siamese x ?)</p>	 <p><i>Persian</i></p>	<p>Body: Cobby Coat: Long & thick C/P: Any, pointed Persians are called Himalayan Type: Natural</p>
 <p><i>Peterbald (Hairless)</i></p>	<p>Body: Foreign Coat: Hairless or brush C/P: Any Type: Hybrid (Oriental Shorthair x Donskoy)</p>	 <p><i>Pixiebob (Shorthair)</i></p>	<p>Body: Medium Coat: Short or long C/P: Spotted or ticked tabby Tail: 2" to hock length Type: Hybrid (bobcat x domestic cat)</p>
 <p><i>RagaMuffin</i></p>	<p>Body: Cobby Coat: Medium to long C/P: any Type: Bred from one very friendly cat</p>	 <p><i>Ragdoll</i></p>	<p>Body: Moderately long Coat: Long C/P: Bi-color, van, colorpoint, mitted patterns; seal, blue, chocolate, lilac, red, cream; must have points Eyes: Blue Type: Bred from one very friendly cat</p>
 <p><i>Ruffie</i></p>	<p>Body: Medium Coat: long or short, curly C/P: Any Ears: curled back Type: Mutation</p>	 <p><i>Russian Blue</i></p>	<p>Body: Medium, fine-boned Coat: Short, double coat C/P: Blue Type: Natural</p>

<p>Safari Cat</p> 	<p>Body: Moderate Coat: Short C/P: Brown spotted tabby Type: Hybrid (Geoffrey's Cat x Domestic Cat)</p>	<p>Savannah Cat</p> 	<p>Body: Semi-foreign Coat: short to medium C/P: black, brown spotted tabby, silver spotted tabby, black smoke Type: Hybrid (African Serval Cat x Domestic Cat)</p>
<p>Scottish Fold (Shorthair)</p> 	<p>Body: Medium Coat: short or long C/P: Any except chocolate, lavender, pointed Ears: Small & folded Type: Mutation</p>	<p>Serengeti</p> 	<p>Body: Semi-foreign Coat: Short C/P: Spotted tabby, solid black, Silver/Smoke Type: Hybrid (Bengal x Oriental)</p>
<p>Seychellois</p> 	<p>Body: Foreign Coat: Short or long C/P: Van, white with any solid color, tail must be a solid color Type: Hybrid (Siamese x Oriental)</p>	<p>Selkirk Rex (Shorthair)</p> 	<p>Body: Medium Coat: short or long; curly C/P: Any Type: Mutation</p>
<p>Siamese</p> 	<p>Body: Foreign Coat: Short C/P: Seal, chocolate, blue or lilac; pointed Type: Natural</p>	<p>Siberian</p> 	<p>Body: Cobby Coat: long, triple coat C/P: Any Type: Natural</p>
<p>Singapura</p> 	<p>Body: Semi-Cobby, small Coat: Short C/P: Sepia agouti, no white Type: Natural</p>	<p>Snowshoe</p> 	<p>Body: Semi-foreign Coat: Short C/P: Pointed mitted, pointed bicolor Eyes: Blue Type: Hybrid (Siamese x American Shorthair)</p>
<p>SoRoKe</p> 	<p>Body: Semi-foreign Coat: Very short, no undercoat C/P: Brown ticked or classic tabby Type: Natural</p>	<p>Somali</p> 	<p>Body: Semi-foreign Coat: Medium-long, double coated C/P: Ruddy, red, blue or fawn ticked tabby Type: Natural or mutation</p>

 <p><i>Sphynx</i></p>	<p>Body: Medium Coat: appears hairless C/P: any Type: Mutation</p>	 <p><i>Thai</i></p>	<p>Body: Foreign Coat: very short C/P: Pointed Eyes: Blue Type: Natural Sometimes called the “traditional Siamese”</p>
 <p><i>Tonkinese</i></p>	<p>Body: Medium Coat: Medium short C/P: Mink, solid or pointed Type: Hybrid (Siamese x Burmese)</p>	 <p><i>Toyger</i></p>	<p>Body: Medium Coat: Short C/P: Tabby with “glitter” Type: Hybrid (Bengal x Domestic Shorthair)</p>
 <p><i>Turkish Angora</i></p>	<p>Body: Semi-Foreign Coat: Long; single coat C/P: Any except chocolate, lavender; pointed Type: Natural</p>	 <p><i>Turkish Van</i></p>	<p>Body: Moderately long Coat: Semi-long with no undercoat C/P: red, cream, black or blue in solid, tabby or tortoise shell; must have van pattern Type: Natural</p>
 <p><i>York Chocolate</i></p>	<p>Body: Medium Coat: Semi-long C/P: chocolate or lavender in any pattern; may have white Type: Selective natural</p>
